Innostar

A HEALTHIER AFFORDABLE BUILDING PRODUCT

AVAILABLE AT THE DONGHIA MATERIALS LIBRARY

LOW-EMBODIED CARBON MATERIAL

Mineral paints provide a healthier alternative to acrylic paints and primers as it is made from Potassium Silicate. They avoid asthmagens, are odorless, and are naturally mold-resistant. Keim Mineral Silica Paint has low to no VOCs. It is made from natural ingredients. This product is NaturePlus certified and has Cradle2Cradle Material Health Gold certification. The *Innostar* Line is a matte, scrub-rate class A finish with a coverage efficiency that allows for one primer & one paint coat only. Titanium Dioxide is being used for pigmenting, the whiter the pigment, the more titanium dioxide.

CATEGORY

Paint / Mineral, Potassium Silicate

MANUFACTURER

Keim

MATERIAL COMPOSITION*

Silica sol (aqueous solution) 10-15%, Polymer (polyacrylate) 2.5-5%, Titanium dioxide (white) and/or inorganic pigments 0-20%, Mineral Fillers (silicate and calcite) 25-35%, Water 25-35%, Hydrophobing agents 2.5-5%, Thickeners <1%, Stabilisers <1%, Wetting agents <1%, Defoamers <1%

**as reported by the manufacturer*
