

Granite Countertop

 A HEALTHIER AFFORDABLE
BUILDING PRODUCT

 AVAILABLE AT THE DONGHIA
MATERIALS LIBRARY

Coldspring Granite Countertops are made from 100% natural granite. Stone is one of the most durable materials that you can use for any application - when specified and detailed correctly, these countertops can last for hundreds of years. Their long life results in granite countertops' very low embodied energy levels. Coldspring is also committed to sustainable manufacturing practices that maximize the utilization of resources while minimizing energy use.
