

Hardboard

AVAILABLE AT THE DONGHIA
MATERIALS LIBRARY

Ampersand Art's hardboard is a healthy, sustainable option for model-making. Sometimes referred to by the trade name Masonite, hardboard is a composite wood material that's made by compressing wood dust. Ampersand Art's flat panel board is 1/8" thick. It is NAUF, meaning it is made without urea formaldehyde and is made from FSC certified wood.
