Pure Tung Oil

AVAILABLE AT THE DONGHIA MATERIALS LIBRARY

Tung oil (sometimes called chinawood oil) is an all-natural hard drying wood oil that provides a tough, flexible, highly water-resistant coating or wood finish. Tung oil is available in 3 grades. The Real Milk Paint's Pure Tung Oil is Grade 1 yellow, the highest grade available. This means that it offers faster drying, superior color, and a long-lasting finish. This product is free of VOCs and other harmful additives. Some prefer it over linseed oil because it dries faster and does not darken as much with age.
