

Original Ceramic Tile

AVAILABLE AT THE DONGHIA
MATERIALS LIBRARY

Fireclay's Recycled Clay Body is made from 50% recycled content, including post-consumer recycled porcelain/glass and pre-consumer recycled granite dust. The tiles are handcrafted in Aromas, California and are 100% VOC free. All of the glazes are also lead-free.

Fireclay offsets their carbon footprint via Carbonfund.org. Fireclay is based in California making this product most suitable for projects in the western United States.
